*Welcome to the website of the Ad Hoc Committee to monitor “Portugal 2030’s Strategy” definition process, within European Union’s post-2020 Multiannual Financial Framework (“CE PT 2030”), set up by the [Resolution of Assembleia da República no. 34/2018](#), of February 2nd, unanimously adopted by all political forces represented therein.*

*The establishment of the new multiannual framework and national strategy for 2030 is a highly important matter for the future of our country and needs deep reflexion and debate, which Assembleia da República expects to enrich in an ambitious, inclusive and decisive manner. In this context, and considering its scope, CE PT 2030 considers that an adequate fulfillment of its purpose entails the promotion of a global and decentralized debate regarding the potential priorities for Portugal in the next years and the major challenges and opportunities of the new multiannual financial framework and national strategy.*

*The common vision of all parliamentary groups represented in CE PT 2030 for its scope and purpose is, therefore, ambitious and transversal. In this website you may follow our work and submit your suggestions.*

*Thank you for your visit and interest!*
