

Committee on Foreign Affairs and Portuguese Communities

Welcome

Dear Citizens, welcome to the Committee on Foreign Affairs and Portuguese Communities portal.

Our core activity includes monitoring Portugal's foreign policy and external relations, as well as the Portuguese Communities throughout the Diaspora.

Additionally, we are aware of the key role of parliamentary diplomacy within the political dialogue between Portugal and the other States of the international community. Portugal has always been, and is proud to be, a peace-loving country, and our foreign policy is based on the international rule of law and oriented towards cooperation and understanding among peoples, nations, and States. We boast a historical, universalist heritage of solidarity, dialogue, and humanism that explains much of what we are and defines our external action.

This institutional space is also yours. Here you will be able to find all the information available on our parliamentary activity, and we hope to make you feel closer to your representatives, who, on your behalf and on behalf of Portugal, and pursuant to the Portuguese Constitution, are committed to monitor, discuss and reflect on the daily activity and the long-term developments of Portuguese foreign policy.

Thank you for your visit.

Sérgio Sousa Pinto
